# **S**CHOOL PHILOSOPHY . . .

All Saints Catholic School is a diverse community composed of students, families, faculty, staff, and parishioners bound together in faith. This community strives to foster the development of the whole child—spiritual, intellectual, personal, social and physical—in an atmosphere of mutual trust and respect.

The faculty and staff endeavor to support the family as the primary educator by creating a nurturing environment for the whole child. Students are guided in the practice of Christian values and in the understanding of their responsibilities toward one another and the larger community. In an academic setting, teachers challenge students to use the educational opportunities afforded them in furtherance of their personal and intellectual growth. Families are encouraged to build a value system consistent with the Catholic faith and to support the school community in all its endeavors.
